METAL PARTNERS INC

Partnering produces results

We have established strategic partnering arrangements to create a company capable of world class service without sacrificing the personal relationship.

Partnering around the globe

Our partners consist of companies with manufacturing facilities in the United States, Europe and Asia. We are not limited to the market conditions of any one region. We can supply you a box of product or multiple truckloads.

Partnering with our customers

Our partnering concept goes even further. We are always seeking to increase the business of both our suppliers and customers by utilizing the strengths of both. Many of our customers become subcontractors for us, providing specialized manufacturing services and increasing their revenue and cash-flow. We help our customers evaluate the scope of their purchases, whether they are considering hedge buying or engineering a new product.

Partnering creates a climate of growth

Our business is continually changing to accommodate the market conditions, the needs of our partnering companies, suppliers and customers. This flexibility enables us to enter new markets with new products in weeks rather than months. These changes are created by the needs of our customers, changes in production technology and market research.

Partnering should be for you

The next time you are estimating a job or looking to make a purchase, call Metal Partners and see for yourself, the difference between a supplier and a **partner**.

OTHER METAL PRODUCTS

CALL US AND INQUIRE ABOUT ANY OTHER METAL PRODUCTS

WE HAVE SOURCING FOR ALUMINUM, NICKEL ALLOYS, COPPER AND BRASS.

SPECIAL FINISHES, TEXTURES OR PERFORATED METAL

WE HAVE EXCELLENT SOURCING TO PRODUCE SPECIALIZED FINISHES, TEXTURED SHEETS AND PERFORATIONS OF ALL TYPES.

SPECIAL PRE-ASSEMBLY FABRICATION

WE CAN PROVIDE YOU SPECIALIZED FABRICATION. THIS REMOVES SIGNIFICANT TIME OF POSSESSION EXPENSE. OUR FABRICATING PARTNERS OPERATE CUTTING EDGE EQUIPMENT FOR THE MOST EXACTING TOLERANCES.

PRODUCT CONSULTATION

CALL US FOR EXPERT ADVISE ON SELECTING MATERIALS, FABRICATING OPTIONS OR MARKET FORECASTING.

METAL PRICES ARE DRIVEN BY THE UNDERLYING COMMODITIES SUCH AS SCRAP METAL AND VIRGIN METALS. WE MONITOR THE WORLD MARKET ON A DAILY BASIS, SEEKING VITAL CLUES TO WHAT DIRECTION PRICES WILL TAKE. WE GLADLY SHARE THIS INFORMATION WITH ALL OF OUR CUSTOMERS.

METAL PARTNERS INC - PARTNERING FOR SUCCESS

STAINLESS STEEL ROUND BAR 12FT

.125" thru 16" Diameter

In grades 303, 304,304/304L, 316, 316/316L, 416, 410, 630

Specs: QQS - ASTM - ASME - AMS

We can precision grind to special size or close tolerance**STAINLESS STEEL HEXAGON BAR 12FT**

.188" thru 3"

In grades 303, 304, 304/304L, 316/316L, 416

Specs: QQS - ASTM - ASME - AMS

STAINLESS STEEL SQUARE BAR 12FT

.188" thru 3"

In grades 303, 304, 304/304L, 316/316L

Specs: QQS - ASTM - ASME - AMS

STAINLESS STEEL FLAT BAR (TRUE)

Thickness: .125" to 3" Widths: .500" to 6"

In grades 303, 304/304L, 316/316L

Specs: QQS - ASTM - ASME - AMS

We can offer special polished finishes**STAINLESS STEEL FLAT BAR (PROCESSED)**

T304/304L, T309, T310, T316/316L,,T321, T347

Thickness .125 to 1" Widths:.500" TO 8"

We can cut bars to any width inclusive of the sizes above**We can offer special polished finishes****STAINLESS STEEL ANGLES (MILL ROLLED)**

.750" to 4" Equal Leg, .125" to .500" Thick

In grades 304, 304/304L, 316/316L

Specs: QQS - ASTM - ASME - AMS

We can custom produce angles from plates (bending and/or welding)**STAINLESS STEEL SHEET**

Grades: T201, T301, T304/304L T316/316L, T321, T409, T410,T430, T434

Finishes: 2D,2B,BA,#3, #4, #6, #8 Super #8 -Special Finishes and textures

Tempers: Annealed, 1/4 hard 1/2 hard 3/4 hard Full hard Spring temper

Sizes available .015 (28ga) through .1875 (7ga)

24" through 72" wide

any length up to 240"

Add-on Value Processing: Leveling, Shearing, Laser-cutting, Bending, Perforating

Protective Coatings Nitto tape, PVC tape, Laser tape, Low adhesive tape

STAINLESS STEEL COIL

Grades: T201, T301, T304/304L T316/316L, T321, T409, T410,T430, T434

Finishes: 2D,2B,BA,#3, #4, Buffed Brite

Tempers: Annealed, 1/4 hard 1/2 hard 3/4 hard Full hard Spring temper

Sizes available: .004 through .1875

.250 through 72"

Add-on Value Processing: Slitting, Temper Rolling, Tension stress relieving

STAINLESS STEEL PLATE

Grades T304/304L, T309, T310, T316/316L,,T321, T347

Finishes: HRAP, #4, Mirror

Thickness: .188" thru 2"

Widths: 48", 60", 96"

Lengths: 120", 144", 240"

Add-on Value Processing: Bending ,Plasma and Laser cutting, Shearing

STAINLESS STEEL DIAMOND PLATE

Grade 304/304L
 Thickness: .188" and .250"
 Width: 36 /48"
 Lengths: 96", 120", 144", 240"

**STAINLESS STEEL TUBING ORNAMENTAL/STRUCTURAL**

Igrades 304/304L, 316/316L
 Mill Finish and 180 Grit Polish, 320Grit Polish, Mirror Polish
 Squares and Rectangles: .500" to 6"
 Wall Thickness: .035" to .250"
 Rounds: .500" to 4"
 Wall Thickness: .0035" to .120"

STAINLESS STEEL TUBING FULL FINISHED

T304/304/L, T310S, T316L/316/L,,T317L,T321, T347
 Welded and Seamless
 Diameter - .062 - 12"
 Wall Thickness: .010 - 2.00
 Lengths: 20ft random or cut to size
 Spec: ASTM A213,A249,A269,A511

STAINLESS STEEL TUBING SANITARY

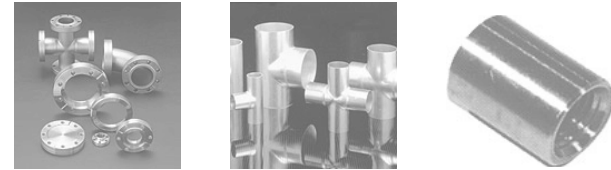

T304/L, T316/L 1" THRU 4" OD (.065 & .083 wall)

STAINLESS STEEL PIPE

T304/304/L, T310S, T316L/316/L, T321, T347
 Welded and Seamless
 Diameter: .125 - 30.00
 Schedule: 5, 10, 40, 80, 120, 160
 Lengths: 20ft random or cut to size
 Spec: A268, A312, A358, A376

STAINLESS STEEL VALVES

T316 1/4" THRU 8"
 Ball(1, 2, or 3 pc.; reduced or full port;
 threaded, S/W, B/W, or flange-end), Gate(150#, 300#)
 Globe, Swing Check, Y-Stainers

**STAINLESS STEEL 150#FITTINGS**

T304, T316 1/8" THRU 4" SW & THR'D
 Elbows(90,St. 90,45), Hex Bushings,
 Couplings(straight, half, reducing),Tees,
 Plugs(Square,Hex)

STAINLESS STEEL 3000# PRESSURE FITTINGS

T304/L, T316/L 1/4" THRU 4" S/W & THR'D
 Elbows(90, 45), Tees(straight, reducing), Unions,
 Crosses, Couplings(full, half, reducing),
 Inserts, Caps

STAINLESS STEEL WELDED OR SEAMLESS FITTINGS

T304/L, T316/L 1/2" THRU 12" SCHEDULE 10,40 & SCHEDULE 80
 Elbows(90, 45), Tees(straight,reducing), Caps,
 Reducers(concentric, eccentric), Stub-Ends
 Large OD SCH 10,40 14" TO 20" WELDED

STAINLESS STEEL FLANGES

T304/L, T316/L 1/2" THRU 24"
 SCHEDULE 10, 40 & 80
 Blind, Slip-On, Socket-Weld, Threaded, Weld-Neck
 1/2" THRU 4" (600#)

STAINLESS STEEL NIPPLES (TBE)

T304/L, T316/L
 SCHEDULE 40 Welded, SCHEDULE 80 SMLS
 1/4" THRU 4", Length (Close to 12")

STAINLESS STEEL STRUCTURAL SHAPES (MILL ROLLED)

T304/304L, T316/316L
 Shapes: Channels, Tees, H-Beams, I-Beams Unequal Angles

We can custom produce shapes from plates (bending and/or welding)
